## HOBBIES

I lead an active lifestyle, which includes travelling, exploring new cultures, and engaging in sports. Football is a particular favourite, combining teamwork, strategy, and endurance. I also focus on streetlifting and strength training in the gym to build fitness. Outdoor activities like hiking, cycling, and camping keep me connected to nature while staying active. Staying physically and mentally engaged through sports and adventure is key to my life.

## ABOUT ME

⊙ As an accomplished SQL Developer and Analyst, I bring a wealth of experience in database administration, query performance optimization, and cutting-edge data analytics. Proficient across multiple platforms—such as MySQL, PostgreSQL, Oracle, MS SQL Server, MongoDB and Neo4j — I am adept at database architecture and business intelligence tools. This expertise enables me to harness data for strategic decision-making and enhance process improvement. My deep-seated passion for database management and analytics drives my commitment to continuous learning and professional growth. I am eager to leverage my skills in SQL development, data modeling, and business intelligence to deliver impactful solutions. With a strong analytical mindset and impressive problem-solving abilities, I am highly skilled at interpreting and visualizing data. My practical experience includes optimizing database performance and designing scalable data solutions. Though my database maintenance and predictive analytics experience is limited, I have a strong theoretical foundation and can quickly adapt to new tools and methodologies.
